Benchmark Education
Company

New Rochelle, NY, 10801

To whom it may concern,

My name is Carlos Abdu. I'm a burgeoning front end developer looking to get my foot in the door of web development & I would like to apply for the position of Junior Web Developer for the Benchmark Education Company.

As graduate of the GA Web Development Intensive program, I understand how important technology can be in increasing one's opportunities through education. I hope that by using the skills I acquired through this program, I could prove to be a good asset by developing landing pages, marketing graphics, and product images from conception to full design. My expertise in Adobe Creative Suite also allows me to create various assets that can be useful in the various multimedia projects, particularly through Photoshop or Premiere.

Through my personal values of perseverance, integrity, and fairness, I will strive to deliver high-quality advertising that will make any e-mail promotion standout. Moreover, the most important factor of this whole ordeal is I believe this job would a great opportunity to practice and perfect my craft as a web developer in an environment conducive to learning.

Attached is my resume and a Linked-in page. You can also see my web portfolio on this link - <http://fine-love.surge.sh>

If you require more information or materials, please feel free to contact me through the e-mail and phone provided. Thank you for your time and consideration. I look forward the hearing from you.

Regards,

Carlos
Abdu
